11. In response to the Embassy's offer to include Ecuador in the State Department's Small Arms/Light Weapons (SALW) destruction program, Ecuador's service chiefs recently provided lists of weapons and ammunition they wish to destroy. Ecuador's joint command later blessed the inventory. Post believes there is sufficient overlap between USG priorities (MANPADS, RPGs, shoulder-fired munitions) and the military's request to merit Ecuador's SALW inclusion.

12. Translation of combined lists follows (Post also emailed the list August 27 to PM/WRA POC Mark Adams).
